

PRESS RELEASE

LeasePlan publishes 2022 Annual Report

Amsterdam, 22 March 2023 – LeasePlan Corporation N.V. today publishes its [2022 Annual Report](#).

Featuring market insights, infographics and case studies, LeasePlan's 2022 Annual Report provides detailed information on the company's financial performance in 2022, as well as highlights from its 'Driving to Zero' ESG strategy and digital transformation.

Tex Gunning, CEO of LeasePlan, said:

"In 2022 the Car-as-a-Service market again proved to be one of the most innovative, sustainable and attractive sectors within the automotive industry. We delivered an underlying net result of EUR 1.4 billion, demonstrating the ability of our industry to generate superior and sustainable value creation for our stakeholders. To capture the accelerated growth we see ahead, LeasePlan made strong progress in its transition from an analogue to a fully digital business model, supported by our Next Generation Digital Architecture. We also continued to take full advantage of the structural market shift to EVs, with 28% of all deliveries now being an electric vehicle.

Looking forward, we are very excited about our proposed combination with ALD. The combined business will be best positioned to take full advantage of the accelerated demand for sustainable car subscriptions."

About LeasePlan

LeasePlan is a global leader in Car-as-a-Service, with approximately 1.6 million vehicles under management in 28 countries. LeasePlan purchases, funds and manages new vehicles for its customers, providing a complete end-to-end service for a typical contract duration of three to four years. LeasePlan is committed to taking a leadership role in the transition to zero-emission mobility and has set itself the ambitious goal of achieving net zero tailpipe emissions from its funded fleet by 2030. With 60 years of experience, LeasePlan's mission is to provide What's next in sustainable mobility so our customers can focus on What's next for them. Find out more at www.leaseplan.com/corporate
