# ALD Automotive Group rewarded by a Gold Ecovadis

For the 5th consecutive year, ALD Automotive has been recognized by EcoVadis with a Gold distinction for the quality of its commitments and CSR performance, both nationally and internationally.

EcoVadis assessed ALD Automotive's sustainable development performance according to 21 criteria and 4 categories: environment, labor and human rights, ethics, and responsible purchasing practices. With a score of 70/100, the Group's assessment ranks ALD Automotive in the Top 3% companies evaluated by EcoVadis, the reference rating agency for CSR performance. It makes us one of the best performers in our sector, before our competitors!

This recognition, obtained with an increase of 2 points vs. last year, reflects our dedication to position ourselves as a key player of the energy transition in the mobility landscape, in all the countries where we operate.

And we don't intend to stop here. In the 5 coming years, our CSR commitment will grow even stronger. We have bold ambitions on sustainable mobility, employer responsibility, business practices and internal carbon footprint. These ambitions are nurtured by our strategy plan Move 2025, being part of the "Move for Good" key pillar. With this pillar, we commit to place people and CSR at the heart of everything we do.
